

## **RISK WARNING**

Engaging in financial trading involves inherent risks. This document aims to inform our clients about potential risks they may face in both trading and non-trading activities within financial markets. Only invest funds that you can afford to lose without adversely affecting your financial well-being. The Forex market carries the risk of significant financial loss.

### **Leverage Implications**

Leverage allows you to trade larger volumes than your account balance, but it is a double-edged sword. While it can amplify profits, it can also magnify losses. Psychological factors often lead traders to use high leverage, creating a false sense of security. Remember, leverage can significantly impact your account, even with minimal market fluctuations. Assess your risk tolerance before choosing your leverage size.

### **Volatility Risks**

Many financial market instruments exhibit high daily volatility, which can result in gains or losses. Be fully aware and willing to assume the risks associated with high volatility.

### **Technical Hazards**

Various technical issues can arise while trading, including:

- Software glitches
- Connectivity issues
- Terminal misconfigurations
- Hardware failures
- Outdated software

**Haven Capital Group LTD** cannot be held responsible for losses resulting from such technical issues on the client's end.

### **Market Conditions**

Ensure compliance with the laws of your jurisdiction, including reporting your earnings to the relevant authorities.

### **Client's Trading Interface**

The primary source for financial instrument quotes is **Haven Capital Group LTD** main server. Only one trade instruction can be in the queue at any given moment. Closing the trade window does not cancel any instructions sent for execution.

### **Communication Security**

Despite encryption, email communications are not entirely secure from unauthorised access. **Haven Capital Group LTD** is not liable for any third-party interception. Maintain the confidentiality of information like passwords. **Haven Capital Group LTD** is not responsible for losses from unauthorised third-party access. Non-receipt of critical communications due to technical issues on your end is not the responsibility of **Haven Capital Group LTD**.

**Force Majeure**

Be aware of risks arising from unpredictable or uncontrollable events.

**Psychological Factors**

An unstable psychological state can negatively influence your trading decisions, leading to losses.

**Additional Risks**

This list is not exhaustive, and other unidentified risks may occur.

We are committed to a long-lasting relationship with our clients and prioritise their well-being. We encourage you to thoroughly familiarise yourself with these risks.

Note: The risks listed above are illustrative and not exhaustive.
